

# Waynesboro 1309 takes advice of the daughter of a Chapter member to make the holidays better for children in homeless camps

The following is an initiative taken on by the daughter of one of our chapter members. She brought this project to our board of officers for assistance in accomplishing her goal. We have been collecting donations of multiple items for local homeless camps. I will copy what I posted on our lodge Facebook page, picture and text. It is my hope that possibly other lodges see what we are doing and attempt to do the same for less fortunate in their communities. If interested they can contact Rob Harbinson (governor) and I can get any information from those involved in this project for them.

This is what you have donated to our drive to this point, we will be delivering items on Christmas Eve to allow the children to have something to open Christmas morning, but we will still accept items until the end of the year, anything helps, don't forget the core of our Moose ideals "a load heavy to one is borne lightly by many". It has also been said "but for the grace of God go I". Remember these 2 quotes and help us help our neighbors in need. Anything will help, blankets, clothes, sleeping bags, canned or non perishable foods, it will all be put to good use. Let's show our neighbors there are people who care, and keep them warm through the cold months. For those unaware we are trying to accommodate up to 30 people of which 4 are children under age 6. Let's not let them be forgotten at a time we all have so much.

Thank you,  
Rob Harbinson  
Governor
